**Cosmetic Dentist
Debra Glassman, DDS**

People who visit *Glassman Dental Care* become "more than patients," says **Debra Glassman, DDS**. "In fact, they become friends."

Here, luxury and comfort combine with state-of-the-art technology to create a star atmosphere. "You'll see Glassman smiles on TV, the movies and Broadway," says husband and partner **Steve Glassman, DDS**.

Their stellar treatment includes candles, massage pads and hot-glove mitts for everyone—and it's their artistry and precision that set them apart from their peers. Like great painters, they use a palate of techniques and tried-and-true measures to create a masterpiece smile.

"People fly in from all over the world to *Glassman Dental Care*," says Dr. Debra. "Our level of expertise and our dedicated support team are ready to cater to your every need."

Jennifer Hudson appreciates that. After she won the best-supporting actress Oscar for *Dreamgirls*, she called on Drs. Glassman to create a matching, award-winning smile.

The Glassmans devote their lives to helping people fulfill their star-smile-dreams. "We created the StarBrite home smile whitening system for everyone," explains Dr. Debra. "It includes whitening toothpaste, mouthwash and dental floss. They all contain Xylitol, which also helps to prevent cavities and gum disease."

StarBrite is available at Victoria's Secrets stores, as well as the Wynn and Venetian Hotels in Las Vegas, and online at www.starbritesmiles.com.

They'll only use products that achieve the results people seek. The Glassmans exclusively use *da Vinci* porcelain veneers and *Invisalign* for smile makeovers. And all patients—including *American Idol*'s Randy Jackson—leave the office with a pack of Orbit White chewing gum for between-treatment gleam.

"Orbit White is our little secret to removing stains and whitening teeth between visits," adds Dr. Debra.

The Glassmans are passionate perfectionists. While they boast a performer-packed portfolio—which includes actor Don Johnson, designer Randolph Duke and supermodel Josie Maran—their technical accomplishments don't go unnoticed by their peers.

Dr. Steve—although too modest to boast of it—presented a smile make-over to his peers at the 2006 *Invisalign* Summit. Out of 20,000 entries, his was voted number one.

A husband-and-wife team with 43 years' combined experience, and three children, Drs. Glassman are passionate about dentistry, and take pride in meeting and exceeding their patients' expectations.

"We want everyone to achieve a dazzling, white smile," says Dr. Debra Glassman. She and her husband of twenty-two years know how life-changing a beautiful smile can be.

P

people who visit Glassman Dental Care are "more than patients," says **Debra Glassman, DDS**. "They become friends."

People travel from all over the world to Glassman Dental Care to take advantage of the luxury, comfort, and state-of-the-art technology. The standard treatment includes candles, massage pads, and hand glove mitts—but ultimately it's her artistry, precision, and uniquely female approach to cosmetic dentistry that set Dr. Glassman apart.

Like a great painter, she uses a palate of techniques to create a masterpiece smile. "You'll see Glassman smiles on TV, on Broadway, and in the movies," she says.

After Jennifer Hudson won the Best Supporting Actress Oscar for "Dreamgirls," she called Dr. Glassman to create a matching award-winning smile. American Idol's Randy Jackson, actor D. Johnson, designer Randolph Duke and supermodel Josie Maran are just a few of the other celebrities who have left Dr. Glassman's office with a confident new smile.

Dr. Glassman only uses products that achieve the results her patients seek, including dental porcelain veneers, Invisalign, and the latest dental "Simpli Implants" for smile makeovers. Above all, Dr. Glassman is a passionate perfectionist who takes pride in exceeding her patients' expectations—want everyone to achieve a dazzling, white smile, she says.
